## **Israeli Companies – Trade Seminar Texas & New Mexico**

Company	Sec	Short Profile	Web Site
	W	Expertise focuses on Distributed Control Networking for DCS & SCADA applications in environmental telemonitoring	<a href="http://www.agm.co.il/">http://www.agm.co.il/</a>
	W	Specializes in developing and marketing environmentally-friendly filtration solutions for industrial, municipal, and agricultural use. Automatic self-cleaning filters and manual filters	<a href="http://www.amiad.com/">www.amiad.com/</a>
	W	Arad specializes in the design, development and manufacture of top quality precision water meters for applications such as domestic, waterworks, irrigation and water management throughout the world.	<a href="http://www.aradtec.com/">www.aradtec.com/</a>
	W	Arrow Ecology builds and operates installations for the treatment of wastewater and sludge from Agricultural entities like: cowsheds, olive plants etc.	<a href="http://www.arrowecology.com/">www.arrowecology.com/</a>
	C	The ArrowBio process is an integrated solution that receives Municipal Solid Waste (whether pre-sorted or unsorted) as an input, eliminating the need for prior separation or classification of mixed waste.	<a href="http://www.arrowbio.com">www.arrowbio.com</a>
	W	protect and ensure drinking water safety & quality	<a href="http://www.checklight.co.il">www.checklight.co.il</a>
	W	Pioneering a revolutionary breakthrough in reverse osmosis desalination. By replacing the existing reverse osmosis desalination scheme with a closed circuit desalination process, able to dramatically reduce desalination production costs. Offers outstanding advantages over existing reverse osmosis desalination scheme	<a href="http://www.desalitech.com/">http://www.desalitech.com/</a>
	W	a water-technologies company operated under a unique incubator model which takes relatively raw technologies and makes them commercially attractive and viable. Cluster of technologies is designed to provide a wide range of treatment systems for resource and water recovery meant for recycle or reuse.	<a href="http://www.lesico.com">www.lesico.com</a>
	W	reduce the operational and maintenance cost of municipal and industrial wastewater treatment plants.	<a href="http://www.mapal-ge.com">www.mapal-ge.com</a>

 Renewed Water Minerals	W	provides desalination plants with cost-effective post treatment, resulting in chemically stable and re-mineralized water (Including magnesium), satisfying the most recent WHO recommendations and contributing to agricultural needs.	<a href="http://www.renew-minerals.com/">www.renew-minerals.com/</a>
	W	A novel approach to understand and act upon the 'behavior' of the water network. It automatically locates and classifies water-network events as early as possible. Uses multiple anchors for data analytics: complex periodic patterns, cross-site correlation, graph structure, event behavior over time and space.	<a href="http://www.takadu.com">www.takadu.com</a>
 	W	The largest private water company in Israel. Unique and proven Nitrate removal solution for municipalities. Nitrate removal is a major issue and the existing methods used have problems such as low recovery rate, environmental contamination, expensive maintenance and high energy consumption.	<a href="http://www.nitron.co.il">www.nitron.co.il</a>
	W	Offer water utilities and high risk facilities protection against an ever-growing range of threats: from accidental contamination to terror attacks and natural disasters	<a href="http://www.w-watersecurity.com">www.w-watersecurity.com</a>
